Carex testacea

NZ Orange Tussock

Short Description

NZ orange tussock. Grows as a tidy clump 50 - 60cm high. Average garden conditions.

Cultivation Advice

Possibly the most popular of the NZ grasses. Holds color and form well and is tolerant of most growing conditions apart from dark shade and boggy ground.

Carex testacea

Partial shade or full sun is OK and can even help the plant look lusher. Generally the plant requires little to no maintenance, perhaps a tip prune of the leaf stems every couple of years.
